Section IV FIRE AND EXPLOSION HAZARD DATA FLASH POINT LEL UEL DEL propellant < 0 F 0.3 13.1 EXTINGUISHING MEDIA Carbon Dioxide, Dry Chemical, Foam UNUSUAL FIRE AND EXPLOSION HAZARDS Isolate from heat, electrical equipment, sparks, and open flame. Closed guirfaces requires special precautions. During emergency conditions overexposure to decomposition products may cause a health hazard. Symptoms may not be immediately apparent. Obtain medical attention. SPECIAL FIRE THE FIGHTING PROCEDURES Full protective equipment including self-contained breathing apparatus should be used. Water spray may be ineffective. If water is used, fog nozzles are preferable. Water may be used to cool closed containers to prevent pressure build-up and possible autoignition or explosion when exposed to extreme heat. EXPOSURE EXPOSURE MALE TO TO minimize exposure, follow recommendations for proper use, ventilation, and personal protective equipment. ACUTE Health Hazards EFFECTS OF OVEREXPOSURE Irritation of eyes, skin and respiratory system. May cause nervous system depression. Extreme overexposure may indicate eye or excessive skine exposure to vapors on spray mists. MAD SYMPTOMS OF OVEREXPOSURE Headache, dizziness, nausea, and loss of coordination are indications of excessive exposure to vapors on spray mists. Mone generally recognized. Mash affected area thoroughly with soap and water. Keep warm and quiet. If on SKIN: Wash affected area thoroughly with soap and water. Keep warm and quiet. If ne XES: Flush eyes with large anounts of water for 15 minutes. Get medical attention. If SWALLOWED: Do not induce vomiting CHENNIC Health is product is an IARC, NTP or OSHA listed carcinogen. Prolonged overexposure to solvent is no Section II may cause adverse effects to the liver, urinary and blood forming systems. Reports have associated repeated and prolonged overexposure to solvents

PRECAUTIONS TO BE TAKEN IN HANDLING AND STORING Keep away from heat, sparks, and open flame. Vapors will accumulate readily and may ignite explosively. During use and until all vapors are gone: Keep area ventilated - Do not smoke - Extinguish all flames, pilot lights, and heaters - Turn off stoves, electric tools and appliances, and any other sources of ignition. Consult NFPA Code. Use approved Bonding and Grounding procedures. Contents under pressure. Do not puncture, incinerate, or expose to temperature above 120F. Heat from sunlight, radiators, stoves, hot water, and other heat sources could cause container to burst. Do not take internally. Keep out of the reach of children. OTHER PRECAUTIONS Intentional misuse by deliberately concentrating and inhaling the contents can be harmful or fatal.
